

Project Location: Nashua, Iowa

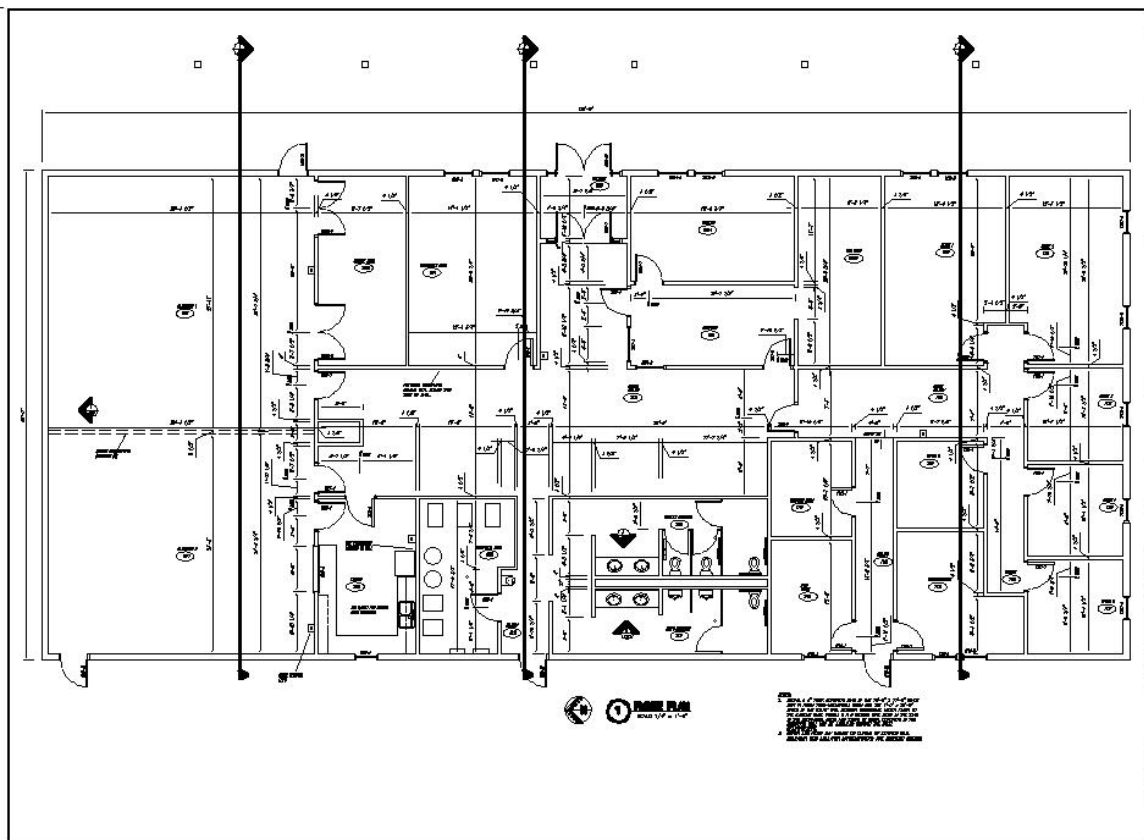

Project Overview:

- This project provides office and meeting space for Iowa State University Extension and Northeast Research Farm personnel.

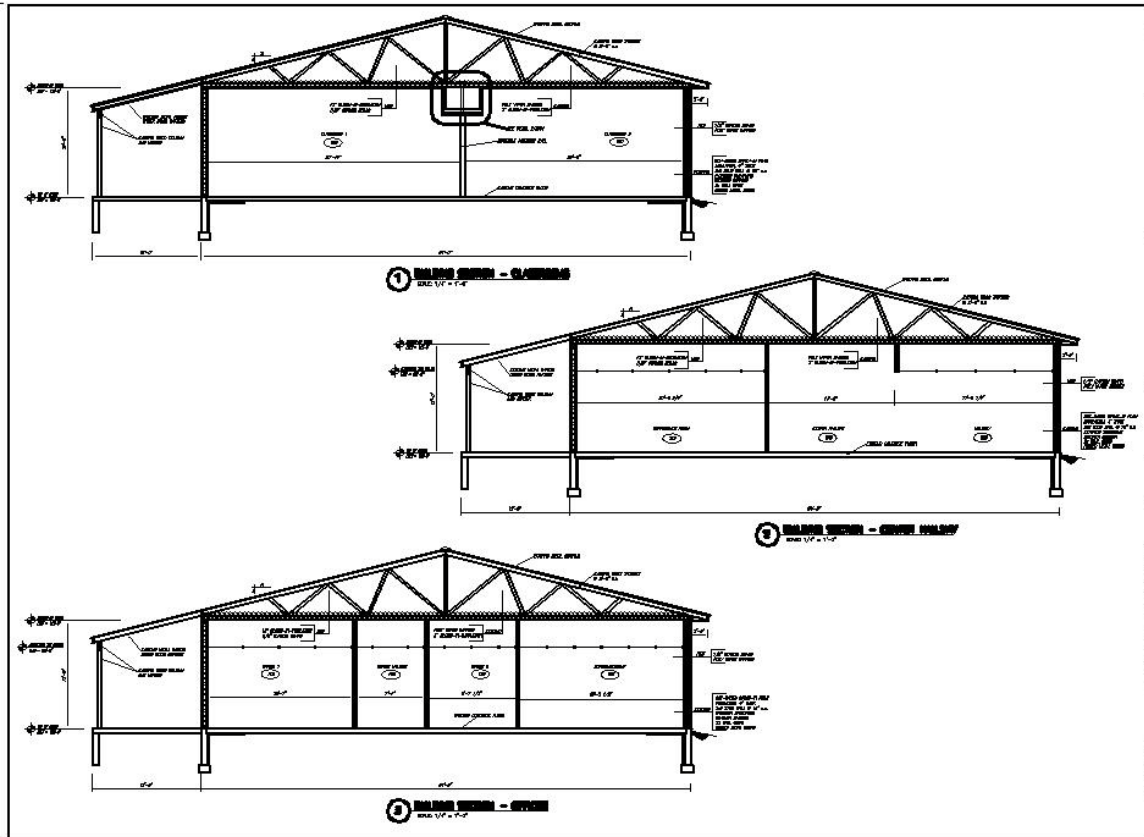

Project Services:

- Curry-Wille and Associates worked with our client, Iowa State University, to provide design services for the interior construction of the facility. Design services included specification of architectural materials and finishes, code analysis, design of interior plumbing system and selection of water-conserving fixtures, design of a geothermal HVAC system, and design of electrical and telecommunication systems for the project.
